

General and Subspecialty Expertise

Affiliated Pathologists Medical Group offers the experience of pathologists with superb general surgical pathology, clinical pathology, and specific subspecialty expertise. The members of our group and their specialty expertise are listed below. All are Board certified in anatomic pathology; most are Board certified in clinical pathology and many have subspecialty board certification. CVs indicate subspecialty Boards. Members who are not subspecialty-boarded have recognized expertise due to extensive experience and specific concentrated case selection.
